PROJECTS

HTML,CSS Responsive Template 🌐

- » In this project I have created a normal wep pages with help of HTML,CSS designed Responsivess so that it can run on all types of system or on all screen size on mobile system.
- » in this project html,css property has been used lot

Bootstrap responsive Template [↗](#)

- » This is a template created by Booster app which is fully responsive and all properties used are used in this template.
- » And with the help of asking this much, we create templates. When does he make the portion very short, And add by Bootstrap class to it, its properties get set almost automatically

Firebase Auth [↗](#)

- » I have made this project with the help of React js in which authentication has been done if there is firebase. With the help of Firebase, you can setup a Google account and with its help you can store the database data on a cloud.
- » After authentication in the Firebase Cloud, all the user information can be set in it which is the secure

Admin Pannel [↗](#)

- » This project is built with the help of React JS.
- » This is the project of admin panel in which admin is there. He can see all the data activities and work of the user. And with the help of your admin panel admin can see the progress and work of all users.
- » In this admin panel, not only the admin can see it. He can also do activities there. An admin can remove any user as per his wish. He can also menu plate his data.

Make Api [↗](#)

- » This project is created in Node.js in making Api, It also uses Express.js and MongoDB server for backend. This is REST api in this all crude operation performs, like Add, Delete, Create, Post all crude operation performs.
- » With the help of API, we can interact with the server so that any request will be made to the API and the data will be updated directly from the server in database

PROFESSIONAL EXPERIENCE

Miranda Tools, (quality controller), Metallurgy Engineer

Ankleshwar, India

- » This company makes all kinds of tools like drill machine tools, cutting tools, hacksaw cutting blade etc.
- » I had to test the names in the laboratory first.

AMNS Steel Hazira, (field controller), Metallurgy Engineer

2021 – 2023 | Surat, India

- » My position was that of field controller I used to work in the operations department of in this company.
- » It is a steel manufacturing company which produces huge quantities of iron and steel.
